

# MARYLAND MEDICAID PHARMACY PROGRAM

No. 179  
December 20, 2017

## ADVISORY

In an effort to give timely notice to the pharmacy community concerning important pharmacy topics, the Maryland Department of Health (MDH), **Maryland Medicaid Pharmacy Program** (MMPP) has developed the **Maryland Medicaid Pharmacy Program Advisory**. To expedite information timely to the pharmacy and prescriber communities, an email network has been established which incorporates the email lists of the Maryland Pharmacists Association, EPIC, CARE, Long Term Care Consultants, headquarters of all chain drugstores and prescriber associations and organizations. It is our hope that the information is disseminated to all interested parties. If you have not received this email through any of the previously noted parties or via MDH, please contact the MMPP representative at 410-767-1455.

### Maryland's Preferred Drug List - January 1, 2018

#### Generic vs. Brand Status on Maryland's Preferred Drug List

Medicaid's Preferred Drug List, encompassing over 1800 drugs, covers most of the generic versions of preferred multisource brand drugs without any type of prior authorization. If the prescription for a brand name drug is to be dispensed as written, the prescriber must complete and submit a Medwatch form <https://mmcp.health.maryland.gov/pap/docs/PA%20form.pdf> The State's clinical pharmacy team will review the Medwatch form and notify the prescriber whether the request for the brand name drug was approved or denied. The State will forward the Medwatch form to the FDA when appropriate.

The Maryland Medicaid Pharmacy Program (MMPP) wants to alert you to changes in the exceptions to this rule that is included in the attached updated Preferred Drug List (PDL) that is effective January 1, 2018. Brands Ritalin LA® and Eryped 200mg/5ml granules ® are no longer preferred over their respective generics (methylphenidate ER/LA and erythromycin 200 mg/5ml granules). Additionally, non-preferred brand Sabril® Powder Packet is preferred over its non-preferred generic equivalent (vigabatrin powder packet).

Please refer to our website for a complete list of the PDL at the following link: <https://mmcp.health.maryland.gov/pap/pages/Preferred-Drug-List.aspx>

#### Not All Generics are Preferred

In order for the State to enhance the benefit of the PDL, in some instances the multisource brand name drug is Preferred over its generic equivalent, because the branded drug is less costly than its generic counterpart. This happens most often in cases of newly released generics. When manufacturer rebates are taken into consideration, the brand name drug has a lower net cost to the State. When the brand name drug is Preferred, no Medwatch nor authorization is needed<sup>1</sup>.

Enter a **DAW code of 6** on the claim to have it correctly priced. If any problems are encountered during the on-line claim adjudication of Preferred Brands, contact Xerox 24-hour Help Desk at 800-932-3918 for additional system overrides related to the use of the correct DAW code (For example, when there is other insurance). Please maintain this Advisory as a reference in addition to any updates that follow.

## **The Brand Preferred exceptions are as follows:**

<b>Preferred Brands</b>	<b>Non-Preferred Generics</b>
Adderall XR	amphetamine salt combo ER
Alphagan P 0.15%	brimonidine 0.15%
Androgel topical packets and pump	testosterone topical packets and pump
Copaxone 20mg/ml	glatiramer acetate (Glatopa)
Catapres TTS	clonidine patches
Cellcept Oral Suspension	mycophenolate mofetil oral suspension
Diastat	diazepam rectal
Differin cream	adapalene cream
Emend capsules	aprepitant capsules
E.E.S 200mg/5ml Granules	erythromycin 200mg/5ml granules
Focalin	dexmethylphenidate
Focalin XR	dexmethylphenidate XR
Gabitril	tiagabine
Hepsera	adefovir
Invega tablets	paliperidone ER <sup>2</sup>
Kapvay ER	clonidine ER
Kitabis Pak	tobramycin pak
Methylin Oral Solution	methylphenidate oral solution
Parnate	tranylcypromine
Pulmicort Respules (all strengths)	budesonide inhalation suspension
Sabril Powder Packet	vigabatrin powder packet <sup>2</sup>
Tegretol suspension	carbamazepine suspension

## **In the following instance, both the multisource brand and the generic are preferred:**

<b>Brand also Preferred (no MedWatch form required)</b>	<b>Preferred generics</b>
Trileptal suspension	oxcarbazepine suspension

<sup>1</sup> Unless the Program has established clinical criteria for the drug. Clinical Criteria can be found by going to the below link:  
<https://mmcp.health.maryland.gov/pap/Pages/Clinical-Criteria.aspx>

<sup>2</sup> Is a non-preferred drug and will require a prior authorization by the prescriber

Only drugs that are part of the listed therapeutic categories are affected by the Maryland Medicaid Preferred Drug List (PDL). Therapeutic categories not listed here are not part of the PDL and will continue to be covered as they always have for Maryland Medicaid participants.

**Note:** Brand names listed in parentheses are only listed as a reference. For most multi-source products, the generic products are usually preferred and the branded innovator product is non-preferred. If a generic product is non-preferred, the corresponding brand product is also non-preferred except where specifically noted as "**(generic only)**". PDL products that are new to market require prior authorization until they are reviewed. Changes in the Preferred Drug List are highlighted in yellow.

## ANALGESICS

Drug Class	Preferred	Requires Prior Authorization
Analgesics, Narcotics (Long Acting)	fentanyl patches (Duragesic) (All strengths except 37.5 mcg, 62.5 mcg, and 87.5 mcg) <sup>cc,ql</sup> morphine sulfate SR (MS Contin) <sup>ql</sup> Embeda	fentanyl 37.5 mcg, 62.5 mcg, and 87.5 mcg patches <sup>cc,ql</sup> hydromorphone ER (Exalgo) <sup>ql</sup> methadone (Dolophine) <sup>ql</sup> morphine sulfate ER (Avinza) <sup>ql</sup> morphine sulfate ER (Kadian) <sup>ql</sup> oxymorphone ER (Opana ER) <sup>ql</sup> tramadol ER (Conzip, Ryzolt, Ultram ER) <sup>ql</sup> Arymo ER Belbuca <sup>ql</sup> Butrans <sup>ql</sup> Hysingla ER <sup>cc,ql</sup> <b>Morphabond ER</b> Nucynta ER <sup>ql</sup> Oxycontin <sup>ql</sup> Xtampza ER Zohydro ER <sup>cc,ql</sup>

## ANALGESICS

Drug Class	Preferred	Requires Prior Authorization
Analgesics, Narcotics (Short Acting)	apap w/codeine (Tylenol w/codeine) <sup>ql</sup> butalbital/apap/codeine/caffeine <sup>ql</sup> butalbital/aspirin/codeine/caffeine <sup>ql</sup> codeine tablets hydrocodone/apap tablets (Lortab, Norco, Vicodin) <sup>ql</sup> hydrocodone/ibuprofen (Vicoprofen) hydromorphone tablets (Dilaudid) morphine sulfate tablets, solution oxycodone capsules, tablets, solution oxycodone/apap (Percocet) <sup>ql</sup> tramadol (Ultram) <sup>ql</sup> tramadol/apap (Ultradex) <sup>ql</sup>	<i>butorphanol nasal spray</i> <i>carisoprodol/codeine/asa</i> <i>dihydrocodeine/aspirin/caffeine (Synalgos DC)</i> <i>fentanyl buccal (Actiq)<sup>cc,ql</sup></i> <i>hydrocodone/apap solution<sup>ql</sup></i> <i>hydromorphone suppositories and solution</i> <i>levorphanol</i> <i>meperidine (Demerol)</i> <i>morphine suppositories</i> <i>oxycodone/acetaminophen (Primlev)<sup>ql</sup></i> <i>oxycodone concentrated solution</i> <i>oxycodone/aspirin (Percodan)</i> <i>oxycodone/ibuprofen (Combunox)</i> <i>oxymorphone (Opana)</i> <i>pentazocine/naloxone (Talwin NX)</i> <i>Abstral<sup>cc,ql</sup></i> <i>Fentora<sup>cc,ql</sup></i> <i>Lazanda<sup>cc,ql</sup></i> <i>Nucynta</i> <b>Oxaydo</b> <i>Subsys<sup>cc,ql</sup></i> <i>Xartemis XR<sup>cc,ql</sup></i>
Anti-Migraine Agents	eletriptan (Relpax) <sup>ql</sup> rizatriptan, rizatriptan ODT (Maxalt, Maxalt MLT) <sup>ql</sup> sumatriptan nasal, syringe, tablets (Imitrex) <sup>ql</sup>	<i>almotriptan (Axert)<sup>ql</sup></i> <i>naratriptan (Amerge)<sup>ql</sup></i> <i>sumatriptan kit, vial (Imitrex)<sup>ql</sup></i> <i>zolmitriptan, zolmitriptan ODT (Zomig, Zomig ZMT)<sup>ql</sup></i> <i>Frova<sup>ql</sup></i> <i>Migranow Kit</i> <i>Onzetra Xsail</i> <i>Sumavel</i> <i>Treximet<sup>ql</sup></i> <i>Zecuity<sup>ql</sup></i> <i>Zembrace Symtouch</i> <i>Zomig nasal<sup>ql</sup></i>
Neuropathic Pain	capsaicin OTC duloxetine (Cymbalta) <sup>cc,ql</sup> gabapentin capsules (Neurontin) gabapentin tablets (Neurontin) lidocaine patch (Lidoderm) <sup>ql</sup> Lyrica capsules <sup>ql</sup>	<i>duloxetine 40mg (Irenka)<sup>ql</sup></i> <i>gabapentin solution (Neurontin)</i> <i>DermacinRx PHN Pak</i> <i>Gralise</i> <i>Horizant</i> <i>Lyrica solution</i> <i>Qutenza Kit</i> <i>Savella</i>
